Objective: Technically sophisticated, seasoned, and talented professional, powered with broad-based experience in web, UI, and e-mail development utilizing HTML, CSS, and JavaScript. Proven competencies in managing quality assurance of items built and directing technical teams by implementing effective strategies to optimize business processes, elevate efficiency, and improve quality. Possess stellar reputation in providing innovative technical solutions and ensuring total customer satisfaction. Capable to multitask in fiercely competitive, multi-platform, and fast-paced environment with dedication to operational excellence.

Experience: EMPLOYMENT HISTORY LEAD ECRM DEVELOPER/LEAD QA ANALYST - MOXIE INTERACTIVE, ATLANTA, GA APR 2007-APR 2013 Directed and coordinated all client-side HTML/CSS (hand-coded) e-mail development for several, ongoing email campaigns for multiple clients with a concentration on Verizon Wireless. Spearheaded and mentored a team of subordinate developers, from conceptualization through completion, in all facets of coding and development, including creative overview, validation and final approval before QA process. Provided direction to a team of QA analysts in handling test plans, test cases, initial code/design overview, and live tests QA. Managed personnel responsible for coding e-mails and landing pages. Notable Achievements:-

Demonstrated comprehensive knowledge of hand-coded XHTML, HTML, and CSS, including Adobe Creative Suite (Dreamweaver, Photoshop, and Fireworks) - Demonstrated competency with Javascript libraries, including JQuery, Prototype and MooTools- Played a vital role in

ensuring code and design compatibility across multiple platforms, including browsers, operating systems and email services such as Yahoo!, Gmail and Hotmail, as well as dedicated email clients such as Outlook 2007 and 2010 SENIOR WEB INTERFACE DEVELOPER - CONSUMER SOURCE INTERACTIVE, NORCROSS, GA AUG 2006-APR 2007 Set strategic direction to all user Interface development and client-side code and graphics implementation for the New Home Guide, New Home Directory and Auto Guide web applications. Spearheaded all client-side code development and implementation (HTML, XHTML and CSS) for several teams within the organization utilizing Agile work environment. Presided over the design, development, functionality, graphic content, interactivity, forms, block level elements, data feeds to client-side elements, cascading style sheets, modularization and cross-browser compatibility for Mozilla Firefox, Internet Explorer, and Opera platforms through the use of HTML, CSS and JavaScript. Notable Achievements:- Exemplified competencies in HTML (XHTML) and CSS in developing and building application interfaces in a Microsoft Visual Studio (ASP.NET) development environment connected to Subversion version control- Drove all efforts in translating designs and specifications into a working, stable, high-speed and dynamic application interface- Managed the direction of the interfaces, as well as in coding

SENIOR WEB DEVELOPER - BENNETT KUHN VARNER INTERACTIVE, ATLANTA, GA FEB 2006-JUN 2006 Demonstrated proficiency in utilizing a high-level knowledge of XHTML, HTML, and CSS in the development of all products to be delivered. Exemplified in-depth knowledge of the primary development environment which consisted of Macromedia Dreamweaver and Fireworks and Adobe Photoshop. Ensured code and design compatibility across multiple platforms, including webmail browsers (Internet Explorer, FireFox, Opera, Chrome, Safari) as well as email clients such as Outlook and Outlook Express. Notable Achievements:- Took full management accountability in the design and development of all HTML-based e-mails for Home Depot, which were delivered to over seven

million users through the use of ExactTarget email delivery system- Received commendation from clients by providing utmost satisfaction to all finished products prior to customer delivery

SENIOR WEB DEVELOPER - MCI/VERIZON, ATLANTA, GA NOV 2005-JAN 2006Accurately entered all content modules in Documentum and determined life cycles and QA specifics. Assumed full responsibilities in ensuring that all web elements were cross-browser compatible. Served as an e-mail developer adept at utilizing HTML and CSS.

Notable Achievements:- Exhibited superior talents for migration, redesign, and restructure of Verizon web content into MCI web standard formats - Led the modification of all content for internal sales and policy information intranets by utilizing high-level XHTML, HTML, and CSS

PROJECT MANAGER/CHIEF OF TECHNICAL OPERATIONS - CRAWFORD COMMUNICATIONS, INC.-ATLANTA, GA, U.S. THIRD ARMY, COALITION FORCES LAND COMPONENT COMMAND (CFLCC), UNITED STATES ARMY FORCES CENTRAL COMMAND (ARCENT) APR 2004-JUL 2005Fulfilled expanded duties such as approval, development, and dissemination of military content to the DVIDS website, as supplied from Army public affairs soldiers stationed in Iraq, Afghanistan, Kuwait, and Qatar. Supervised daily activities of a group of 19 public relations specialists, journalists, broadcasters, and web developers, both military and civilian, in their task of partnering with media outlets and major news sources (television, radio, and print) to develop and market video, images, and print stories received from the field. Carried out various duties such as web development, design and implementation utilizing HTML, CSS, Javascript, PHP and SQL on a Microsoft Windows platform, as well as management of a team of peripheral IT professionals in the development, implementation and maintenance of the DVIDS web application, to include secondary applications and the DVIDS intranet/administration site.

Notable Achievements:- Diligently managed the U.S. Army Digital Video and Imagery Distribution System (DVIDS) project under contract with the Department of the Army, U.S. Third Army, Coalition Forces Land Component Command (CFLCC) in direct support of Operation Iraqi Freedom and Operation Enduring Freedom and the Global War on Terror- Personally awarded the coveted 3rd Army Challenge Coin, for excellence and professionalism, by Lieutenant General David D. McKiernan, commanding general of the Third United States Army- Exemplified in-depth knowledge of client-side technologies pertaining to design, development, functionality, graphic content, interactivity, frames, forms, tables, data collection, image maps, style sheets and troubleshooting for all major browsers, as well as proper project and personnel management techniques and procedures to ensure the successful completion of all assigned tasks

SENIOR WEBSITE DESIGNER/WEB TECHNOLOGY SPECIALIST - LOCKHEED MARTIN CORPORATION-INFORMATION TECHNOLOGY DIVISION, CENTERS FOR DISEASE CONTROL AND PREVENTION (CDC) - NATIONAL IMMUNIZATION PROGRAM (NIP), UNITED STATES DEPARTMENT OF HEALTH AND HUMAN SERVICES, ATLANTA, GA MAR 2003-APR 2004Diligently developed complex XHTML, HTML, JavaScript and CSS web assets for the Centers for Disease Control and Prevention's National Immunization Program web presence as well as for web-based dissemination of bio-terrorism and smallpox preparedness and emergency response information to the American public.

Notable Achievements:- Earned recognition as the subject matter expert for all assistive technologies involving web development and design, including the JAWS screen reader, LIFT for Macromedia Dreamweaver and Section 508 of the U.S. Rehabilitation Act code and design compliancy for all web development and content publishing- Successfully converted all code to accessibility standards; efficiently coached educating development staff and content providers on necessary procedures to achieve Section 508 usability- Functioned as team graphics specialist, responsible for creating and manipulating graphic and artistic elements using Photoshop 7.0 and Fireworks MX for web publication- Seamlessly conceptualized, developed, and implemented information architecture, templates, and client-side applications using HTML, JavaScript, CSS and SQL to provide health and vaccine-related web content
